

NanduQ Announces the Decision to Voluntary Delist its ADRs from Moscow Exchange

NICOSIA, CYPRUS – October 6, 2025 – NanduQ plc (AIX: NNDQ and MOEX: QIWI) (“NanduQ”, “Group” or the “Company”), an innovative provider of cutting-edge fintech services, today announces that on 3 October 2025 its Board of Directors approved the decision to apply for a delisting of the American depositary receipts (ISIN: US74735M1080, CFI: ESVUFA), representing interests in the Company’s class B shares (the “ADRs”), from the Public Joint-Stock Company “Moscow Exchange MICEX-RTS” (the “MOEX”).

This decision was adopted following a reassessment of the strategic relevance of maintaining the ADR listing on MOEX. The Company has currently no operational activities in Russia and has neither carried out nor declared a redomiciliation. Accordingly, the continuous listing on MOEX is not a strategic priority for the Company which plans to focus on the development of its international business and will keep Astana International Exchange as the key listing venue for its ADRs.

In approving the application for the delisting, the Company also took into account a third-party tender offer completed by Fusion Factor Fintech Limited on 8 July 2025 which resulted in the decrease of the Moscow Exchange ADR trading volumes and that, on 30 September 2025, Fusion Factor Fintech Limited has announced another third-party tender offer to purchase any and all outstanding ADRs on MOEX for the purchase price of RUB 210 per ADR (“Tender Offer”). Please refer to the following link for more information about the Tender Offer: <https://www.fusion-factor.com/tender-offer>. Please also see the following press-release regarding the awareness of the Company of the Tender Offer: <https://nanduq.com/news-and-events/press-releases/4108611/>.

It is expected that the delisting application will be filed by the Company today. The delisting process will be carried out in accordance with the MOEX procedures. The effective date of delisting will be announced once confirmed by MOEX.
